About NaturaCrops

NaturaCrops is the export division of Tom Projects, dedicated to delivering premium frozen and fresh agro food products from Egypt and Türkiye to international markets.

We focus on **high-standard quality, transparency, and reliability** across every step of the supply chain — from sourcing and processing to packaging and delivery. Our products are cultivated through trusted grower partnerships and processed in facilities that are **FDA registered, ISO 22000, and ISO 9001 certified**, ensuring full compliance with global food safety standards.

With a portfolio covering **IQF frozen fruits and vegetables, seasonal fresh produce, and value-added agro food solutions**, NaturaCrops serves retail, **HORECA, and industrial buyers**. We pride ourselves on clear communication, competitive pricing, and dependable logistics, offering clients full visibility and confidence in every order.

Our mission is simple: to provide **consistent quality and trustworthy supply** that help our partners grow in the **EU, UK, Middle East, Central Asia, and GCC markets**.

Ready To Offer
